

Ducati Panigale V2 Apparel Collection

1. Racing suit Ducati Corse K1

Ducati Corse K1, available in both standard and custom sizes, is specifically designed for sports use. Designed by Aldo Drudi and produced by Dainese exclusively for Ducati, it is made of durable and lightweight kangaroo leather with large ventilated areas. The suit is fitted with patented Tri-Axial inserts on the back and aluminum plates built into the shoulders, elbows, and knees. The elbow and knee constructions - with interchangeable sliders - are pre-curved to accompany movements and increase riding comfort. Ducati Corse K1, fully level 2 CE-certified, is ideal for anyone looking for extreme emotions without sacrificing safety.

2. Two-pieces racing suit Ducati Corse C4

The two-piece Ducati Corse C4 riding suit is a CE certified garment developed in collaboration with Dainese that combines the safety features of a track racing suit with the comfort and style of a road riding suit. It is made from Tutu cowhide leather with S1 elasticated fabric inserts to better adapt to the contours of the body while at the same time providing freedom of movement. The inside is equipped with protectors in the areas most exposed in case of a fall, as well as replaceable sliders on the knees, and a fixed Nanofeel® lining to ensure an exceptional microclimate. Developed in both a men's and women's model, it is available only made to measure with colors and logos customizable by the client.

3. Leather jacket Ducati Corse C4

As a symbol of racing passion, the Ducati Corse C4 leather jacket designed by Aldo Drudi is a CE certified garment designed for sports riding on the road. Manufactured by Dainese exclusively for Ducati, the exterior is made from soft and durable D-Skin 2.0 cowhide leather, while its interior consists of both 3D-Bubble and Nanofeel® to ensure exceptional comfort and coolness. Featuring molded aluminum interchangeable plates on the shoulders and composite protectors on the elbows, the garment also comes ready for insertion of back and chest protectors. The garment is only available in a men's model, in both standard and perforated versions, with two color variants. A garment with an unmistakably Ducati DNA.

4. Leather trousers Sport C2

Designed for sport riding both at the track or on the street, the Ducati Sport C2 leather trousers feature an aggressive cut suited for a sport riding position. It is equipped with formed CE armor in the knees that extends long in the shin panels as well as CE rated armor in the hips. A full length waist zipper pairs with any of the sport styled Ducati leather jackets,

to make a complete outfit. For better comfort the Sport C2 leather trousers have generous S1 stretch panels in non impact zones and adjustable calf zippers.

5. Fabric jacket Ducati Corse tex C4

The Ducati Corse C4 fabric jacket, which is available in male and female variants, is designed for sport-touring use. Designed by Aldo Drudi and developed in collaboration with Dainese, this high-quality CE certified garment is made from Cordura® Comfort material, a water and oil repellent fabric that is slightly elastic and provides for exceptional riding comfort. It comes equipped with protectors on the shoulders and elbows, and is predisposed for the insertion of a chest protector (men's version only) and a Wave or Manis G back protector. The removable thermal lining, the air vents and the D-Dry® waterproof and breathable membrane allow it to be used under a wide range of climatic conditions.

6. Helmet Ducati Corse Speed 2

Boasting a sporty look and dynamic artwork, the Ducati Corse Speed 2 helmet designed by Drudi Performance exclusively for Ducati is made by Arai based on the RX-7 V model. It is the top of the line when it comes to safety, comfort, and performance. Ample field of vision at any angle for sport riding, shell reinforced with composite fibers, car-inspired visor opening, and ventilation optimized for maximum stability and efficiency at high speeds are just some of the unique characteristics of this top-of-the-range helmet. A garment with an unmistakably Ducati DNA.

7. Helmet Ducati Corse SBK 4

The Ducati Corse SBK 4 helmet, based on the Arai Chaser-X, is specific for sporty riding. The super fiber shell is sturdy and lightweight, the VAS visor offers a wide viewing angle, the internal cheek pads fit perfectly to the face, and the removable and washable interior offers great comfort. The design, developed by Drudi Performance exclusively for Ducati, immediately recalls the atmosphere of the racetrack and the colors that make the hearts of Ducatistas around the world beat faster.

8. Helmet Speed Evo

The new Speed Evo helmet produced by X-Lite is the full-face racing helmet with high levels of carbon content, dedicated to the Ducatista who loves sports riding and accepts no less than the best. The durable and lightweight external fiber shell is available in 3 sizes. The wide field of view, thanks to increased lateral visibility, allows greater riding comfort. The superior aerodynamic performance of the helmet, wide and functional air intakes, and excellent static and dynamic comfort are just some of the features of this top-of-the-range helmet with eye-catching graphics made by Drudi Performance exclusively for Ducati.

9. Gloves Ducati Corse C3

Ducati Corse C3 leather gloves, dedicated to sport use, feature excellent fit, great sensitivity on the controls, and elevated levels of protection. Made by Spidi Sport, they feature full-grain leather with carbon protectors on the knuckles, fingers and metacarpal, Clarino® reinforcements, and Warrior insert on the palm. In the event of a fall, the hand is further protected by a Keramide lining resistant to abrasion and heat, and by the presence of fiber double stitched seams in the areas most subject to stress. Available in two color versions, the Ducati Corse C3 are CE-certified according to the latest standards.

10. Leather gloves Performance C2

Performance C2 gloves made exclusively for Ducati by Held were specifically designed with a sporty fit. They are made of a mix of goat leather, cowhide and Superfabric® to provide softness, sensitivity to commands, and protection for the various parts of the hand. C2 Performance gloves are equipped with carbon protections on wrists, knuckles, and fingers, shock absorbing padding, and internal reinforcements in aramid fiber. Available in two color versions, they are CE certified according to the latest European standards.

11. Leather-fabric gloves Sport C3

The Sport C3 gloves, certified CE, are made in collaboration with Spidi. They are perfect for high-performance street riding during the hot seasons. Made of punched cattle hide 0.6 mm thick, the palm is Clarino® imitation leather with keramide reinforcements. The knuckle protections are in carbon fiber, while the metacarpal protector is a Warrior protection. The Sport C3 gloves are available in the colors white/red and black/black.

12. Racing boots Ducati Corse V5 Air

The Ducati Corse V5 Air boots, made in partnership with TCX®, are specific for track use. The light, durable partially mesh Microfiber upper is equipped with the Double Flex Control System, a protective structure in polyurethane with a slim profile designed to adhere to the boot shaft. Two ribs running along the back of the boots provide for a controlled flexibility of up to 13°, preventing the risk of hyperextension of the joint. Comfort and protection of the tibia are ensured by an over-injection on elastic material, while the inner side of the boot has a surface that provides grip without any protrusions that could get caught during a fall. In fact, the boot's closure is positioned on the outer side. An effective calf adjustment system, the sole integrated into the boot design, magnesium sliders, and an internal lacing system with quick scrolling strap complete the overview of these top-of-the-range sport boots.

13. Sport-touring boots Speed Evo C1 WP

The Ducati Speed Evo C1 WP boots produced by Alpinestars and CE certified according to the latest European standards were designed to offer a high level of protection and comfort in sports riding. The microfiber upper with high abrasion resistance is tested to last over time and has two large pleats offering flexibility, while the forefoot is ergonomic to facilitate pedal control. The boots, equipped with shin pads, ankle supports and interchangeable TPU sliders, have a waterproof and breathable membrane that makes them comfortable even in adverse weather conditions.

14. Technical short boots Ducati Theme

The Company 3 are low boots developed for the increasingly specific needs of the urban biker. Externally they have a casual look incorporating characteristics that pass strict CE certification testing. The Company 3 are equipped with microinjection reinforcements on the ankle, toe, and heel, and have an outsole with an insole in a semi-rigid material to ensure transverse resistance in the event of crushing. The upper in microfiber, chamois, and fabric is resistant to wear, while the water resistant inner liner makes the boots ideal even for use in adverse weather conditions.

15. Trolley Redline T1

The Redline T1 trolley, made by Ogio in the exclusive Ducati livery, is designed to contain all the equipment of the motorcyclist. Its size and the possibility of customizing its interior with padded panels makes the trolley extremely versatile and comfortable. The rigid SLED system uniformly distributes the load across the surface making it easier to move. A robust handle and large wheels make for easy transport even when fully loaded. An absolute must have!

16. Bag Redline D1

Gym bag or backpack? Redline D1, designed for sports lovers, can be used as both: the handles of the bag become the shoulder straps of the backpack and allow for a dual use. Redline D1 is equipped with a large central compartment with inside pocket, two ventilated side areas for wet clothes and shoes, a water-resistant compartment for storing wet/dry clothes, a space for food, a rigid case for glasses and an insulated pocket for water bottles. This sturdy, versatile and roomy backpack-bag (49 liters) is made with high quality materials and customized Ducati with reflex and black prints, zip puller and inner lining with a design of the desmo.

17. All-use knapsak Redline B3

The Redline B3 backpack produced by Ogio in the exclusive Ducati version has a capacity of 22 liters and a multi-pocket construction that allows you to transport a large number of

objects in a safe, organized manner. Equipped with padded pockets for PC and tablet, rigid shaped compartment with fleece lining, bottle holder, ergonomic shoulder straps, and a HUB (Hybrid Unibody Backpanel) padded back, it offers superior comfort and versatility of use, both on the bike and in leisure time.

18. Windproof jacket Ducati Corse windproof 3

Thanks to its sporty graphics, the Ducati Corse Windproof 3 is the ideal piece for all Ducati fans. Produced in Softshell fabric, this windproof and highly breathable jacket is ideal for daily wear. Thanks to the comfortable, elasticated fabric, Ducati Corse Windproof 3 can be worn alone as a casual jacket or as a thermal garment under another piece. This jacket, available in men's and women's version, is not designed to be used as a motorcycle jacket.

19. Fleece jacket DC Power

The new Ducati Corse fleece jacket with a racing spirit. The front zipper, three external pockets, and the waist adjustment make it practical and functional. It will keep you warm, and not just at the track!

20. Sweatshirt DC Power

Ducati Corse hooded sweatshirt with a bold racing look. Highly technical, the polyester sweatshirt guarantees good thermal insulation and breathability. For those looking for Ducati comfort and style to wear in their free time.

21. Short-sleeved polo shirt DC Power

A sporty item featuring Ducati Corse's iconic colors – red, white, and black – for a 100% racing look. The polo shirt signed by Ducati is made of non-allergic, highly resistant, and breathable material for optimal comfort.

22. T-Shirt DC Power

This soft Ducati Corse T-shirt features a bold racing personality and optimal comfort. Also available in red and black, it has undergone the Aquamove treatment to wick away moisture while keeping your body dry. The fan's T-shirt by definition.

23. Sunglasses Florence

An easy-to-wear squared frame with keyhole bridge for vintage character, completed in matte black with a Ducati single spring hinge, thin double injected rubber temples and Ducati logos on temples. This light frame is comfortable also with the helmet.

24. Cap DC Stretch

A result of the partnership between Ducati and New Era, the cap comes with a DucatiCorse patch that stands out on the peak and an original mesh fabric on the back. Available in two size, created in 100% polyester for optimal comfort and breathability.
